Zoom able optics enabling to focus projection basis distance of projection. Zoomable optics enabling to focus projection basis distance of projection. Zoom from 15-45deg to remove distortion if any. The Flood / Gobo should have a capacity of storing Minimum 4 Gobos which can be projected in repeated sequence or as per recall/ program of the software. Should have capability to control the speed of rotation as well as make it static by stopping rotation whenever Images of Eminent Dignitaries are projected. Powered with Integral Power Supply with THD < 20% at rated Power & PF > 0.95. Surge Protection, Over Voltage, Over Current Protection. Not weighting more than 3.50kg. The housing is in Black colour, Product could be mounted on existing Poles with a help of a Clamshell Bracket finished in Black Colour (similar to product).

Complete operation over a centralized DMX Controller or individually controlled by hand-held remote.

- (b) Customized bracket for existing pole with fasteners/ bolts for mounting 2 nos. of GoboProjectors as per client requirement.

Note:-

The projector shall be DMX controlled however for initial phase due to shortage of time that is before 26 January 2023, the lighting would operate on static mode due to short time. The DMX control shall be made functional and whole system made dynamic before

- vi). A Mock-up consisting of 4 projectors installed properly at site with actual lighting image and effect needs to be created with 12 days of the work order for approval by the Ministry of Culture and the lighting designer.
